

The 1st National Scientific Conference and Workshops: *Six-month Internship– Knowledge and Practical Skills*

On November 8, 2017 the National Conference and Workshops on “Six-month Internship – Knowledge and Practical Skills” is to take place at the campus of the School of Pharmacy with the Division of Laboratory Medicine, the Medical University of Silesia (conference location: Sosnowiec, Jedności 8).

This is the first conference in Poland devoted to planning guidelines and organization of Six-month Internship. The dynamic progress made in the field of pharmaceutical sciences, and the practical training in the profession of pharmacist related to it, requires close cooperation between University and Pharmacists.

The forthcoming conference will be an opportunity to improve professional qualifications as well as an occasion to develop the cooperation between academic teachers and pharmacists, with a view to patient’s well-being and professional fulfillment of occupational duties.

The Organizers: the School of Pharmacy with the Division of Laboratory Medicine in Sosnowiec, the Silesian Pharmaceutical Chamber in Katowice, and the regional section of the Polish Pharmaceutical Association in Katowice.
